
plastic alternatives

Posted by cheryl - 2008/05/29 23:14

I have been reading about the dangers of plastics to our health as well as our environment and I am looking for storage containers that are not plastic, perferably stainless steel to put my kids lunch and snacks in. I can't seem to find any little containers anywhere, can anyone help? Also any advice on water bottles. I think I am going to go the ecotank brand I am not so sure about SIGG with its inside lining. Any thoughts?

Hi

Please give me a call at The Green Directory if you haven't had any luck tracking something down.

Jenny
