## What possible help I can get?

Posted by christopher - 2008/07/02 10:37

---

Hi people, I want to know if there is any kind of service which can get me a record of the work which my subordinates are doing and provide an environment to yield better results in our ongoing cases/projects??? I am out of country on official work and I am unable to make a tele-contact with them

=====

I was also having the same problem but then I came across an investigation system and it solved my problem very easily. I will suggest you also to take the help of mentioned service and hope for the best.
