## cladding an old weatherboard house

Posted by gegemec - 2008/08/01 01:38

---

i am looking to good cladding options for my old seaside weatherboard/cement sheeting house. i was thinking of using corrugated iron, and i was told by my builder brother that a corrugated iron product existed which has already got insulation attached to its inner surface ... however i cant find anything like it on the net, has anyone got any advice?  
many thanks

=====
